4.2 It is also prohibited for the Relevant Persons to:

The disclosure to third parties of the recommendations or inducements referred to in subparagraph (b) shall be deemed an unlawful disclosure of Inside Information if the person disclosing the recommendation or inducement knows or should know that they are based on Inside Information.

5.3.1 The Information Referent:

- (a) assists, with the support of the Company's internal structures, the Chief Executive Officer in the correct fulfilment of the disclosure obligations provided in relation to Inside Information by this Procedure and by the applicable regulations;
- (b) with the help of the Company's internal structures, handles relations with the media and prepares press releases on Inside Information.

5.4 Subsidiaries

- 5.4.1 Subsidiaries, and in particular the persons responsible by virtue of the internal organisation of the body, are required to promptly inform the Chief Executive Officer and the Information Referent of the occurrence of a set of circumstances or an event that constitutes or may constitute Inside Information. The assessment of the privileged nature of a piece of information shall in any case be referred to the Chief Executive Officer or - at the latter's request - to the Board of Directors pursuant to the following Article 7.1.3.

6 INFORMATION RELATING DIRECTLY OR INDIRECTLY TO THE ISSUER

- 6.1.1 The Company shall disclose to the public, as soon as possible, according to the procedures provided for in the following Article 7.2, any Inside Information directly concerning the Company.
- 6.1.2 As specified in the Guidelines, the Company shall therefore not disclose information that concerns the Company "indirectly", such as, for example, information which, although affecting the prices of financial instruments issued by the Company, comes from persons outside the Company (see Paragraph 4.2.1 of the Guidelines).
- 6.1.3 The Guidelines provide (i) an illustrative and non-exhaustive list of types of Inside Information that might directly concern an issuer and (ii) examples of information that indirectly concern an issuer; these lists are both attached under **Annex A** to this Procedure, to which reference is made.
- 6.1.4 The Guidelines also clarify that, following the publication of information indirectly concerning the Issuer, Confidential Information (as defined in paragraph 10.1 below) which was not considered Inside Information by the Issuer may become such; the Guidelines also provide a number of examples which are contained in **Annex A** to this Procedure, to which reference is made.

7 HANDLING OF INSIDE INFORMATION

7.1 Assessing the 'privileged' nature of information

- 7.1.1 The responsible persons of the offices of the Company and its Subsidiaries who consider that the Company is required to disclose, to the market, Inside Information of which they have become aware by virtue of their working or professional activity, or by virtue of the functions they perform, relating

to facts falling within the scope of activities of the Company and/or its Subsidiaries, and in relation to which the obligations of disclosure to the public have not yet been fulfilled, shall notify this circumstance without delay to the Information Referent.

7.1.2 If the Information Referent, also on the basis of the reports received in accordance with paragraph 7.1.1 above, believes that he/she is in possession of Inside Information, he/she must immediately inform the Chief Executive Officer.

7.1.3 The Chief Executive Officer, or - at the latter's request - the Board of Directors, shall:

- (a) assess, with the support of the Information Referent and of the Company's internal structures, whether such information can actually qualify as Inside Information;
- (b) determine whether to make a disclosure to the market, or whether to delay such disclosure, in accordance with the provisions of the applicable regulations.

7.2 Public disclosure of inside information

7.2.1 The Company shall:

- (a) through the Information Referent, disclose Inside Information to the public as soon as possible;
- (b) ensure that Inside Information is made public in a manner that allows for prompt access and full, fair and timely evaluation by the public;
- (c) publish and keep on its website, for a period of at least 5 years, all Inside Information disclosed to the public.

7.2.2 The Company shall not combine the disclosure of Inside Information to the public with the marketing of its activities.

7.2.3 Disclosure to the public of Inside Information must take place, as soon as possible, through a specific press release drafted by the Company, in accordance with the provisions set forth below, taking into account the press release formats contained in the Instructions to the Regulation of Markets Organised and Managed by Borsa Italiana S.p.A., as applicable.

7.2.4 The "Investor Relations" has the task to prepare drafts of press releases, sharing the same, where necessary, with the corporate functions involved from time to time, in order to allow them, insofar as they are concerned, to assess the reasons, contents and compliance with the criteria for drafting press releases.

7.2.5 The text of the draft press release must be submitted to and approved by the Chief Executive Officer and, if deemed advisable or necessary, by the Board of Directors, for final approval prior to external disclosure, subject to confirmation, if the text relates to information of an accounting nature, by the Manager responsible for preparing the company's financial reports (the **Appointed Manager**) pursuant to and for the purposes of Article 154-bis of the Consolidated Financial Act.

7.2.6 As specified in the Guidelines (see Section 7.1 of the Guidelines):

- (a) disclosure shall be made within the timeframe necessary for the drafting of the press release in order to allow a complete and correct evaluation of the Inside Information by the public and for its subsequent transmission to the SDIR circuit used by the Company for disclosure of Regulated Information (the **SDIR**)¹;
- (b) in order to allow Consob and the market management company to carry out their respective supervisory activities in a timely manner, the Company shall give Consob advance notice, even in a brief and timely manner, of the possibility that Inside Information of particular importance may be disclosed to the public while financial instruments are being traded. Similar notice shall be given to the market management company in accordance with market rules.

7.2.7 The "Investor Relations" function introduces the press release into the SDIR circuit, through which it is sent to Consob, Borsa Italiana S.p.A. and the press agencies connected to the system².

7.2.8 If Inside Information has been accessed by a third party who is not bound by an obligation of confidentiality (regardless of whether such obligation is of a legal, regulatory, statutory or contractual nature), as a result of intentional or unintentional disclosure by the Company or by a party acting in its name or on its behalf in the normal course of the exercise of its professional activity or function or, in any case, the confidentiality of the Inside Information has been breached, the Company is required to re-establish parity of information by disclosing the Inside Information to the public. Such disclosure must take place (i) simultaneously, if the disclosure was intentional, and (ii) promptly, if the disclosure was not intentional.

7.2.9 The press release shall be considered public as soon as the relevant confirmation has been received by the SDIR system. In case of operational malfunctions and/or interruption of the SDIR system service, the information obligations towards Borsa Italiana S.p.A. shall be fulfilled by fax to the numbers indicated in the Instructions to the Regulations of the Markets organised and managed by Borsa Italiana S.p.A.³

7.2.10 The press release is also sent to the authorised storage mechanism used by the Company to maintain Regulated Information.

7.2.11 The "Investor Relations" function shall take steps to upload the press release on the Company's website ensuring (i) that non-discriminatory and free access is guaranteed; (ii) that Inside Information is

¹ If the information becomes inside information on the Friday after the markets close, the issuer does not take into account the fact that the markets will be closed during the weekend for the purposes of the correct timing of publication. This is also in view of the possibility of OTC transactions being concluded (see Section 7.1.6 of the Guidelines).

² According to Article 2(1)(b) of Implementing Regulation (EU) 2016/1055 "Issuers (...) shall disclose inside information by a technical means which enables them to: (...) (b) disclose inside information, either directly or through a third party, to the media on which the public reasonably relies for the effective dissemination of that information. The disclosure shall be made by an electronic means which preserves the completeness, integrity and confidentiality of the information being transmitted and shall clearly indicate: i) the privileged nature of the information disclosed; ii) the identity of the issuer or emission allowance market participant: full corporate name; iii) the identity of the notifier: name, surname, position with the issuer or emission allowance market participant; iv) the subject matter of the privileged information; v) the date and time of the disclosure to the media. "

³ The Instructions to the Rules of the Markets organised and managed by Borsa Italiana S.p.A. establish that, in such cases, the press release should be sent to one of the following fax numbers: 02/8646.4242; 02/7200.4666.

published in an easily identifiable manner in the "Investor Relations" section of the website; (iii) indication of the date and time of publication of Inside Information and arrangement of Inside Information in chronological order; all in compliance with the principles set forth in the following article 11 , where applicable.

7.2.12 In the event of loss of confidentiality, public disclosure of Inside Information shall take place as soon as possible.

7.2.13 The provisions of the preceding paragraph 7.2.12 shall also apply in the event of rumours which are sufficiently accurate to indicate that the confidentiality of Inside Information is no longer guaranteed.

7.2.14 Disclosure to the public of Inside Information relating to other Group companies is in any case the responsibility of the Company. Subsidiaries must therefore refrain from independently disclosing their own Inside Information to the public.

7.3 Dissemination of information at shareholders' meetings, meetings with the press, financial analysts or representatives of trade union organisations

7.3.1 The disclosure of Inside Information at a Shareholders' Meeting of the Company implies there is an obligation to disclose such information to the public in the manner set out in paragraph 7.2.

7.3.2 If the Company or another company in the Group organises or participates in meetings attended by financial analysts, institutional investors or other market operators, the Company's "Investor Relations" function shall:

- (a) notify Consob and the market management company in advance of the date, place and main topics of the meeting;
- (b) provide Consob and the market management company, through the SDIR system or in accordance with the alternative methods established by the competent Authority, with the documentation made available to the participants of the meeting, at the latest at the same time as the meetings are held;
- (c) allow participation in the meeting also to members of the economic press, or, where this is not possible, publish, in the manner provided for in the paragraph 7.2, a press release outlining the main items discussed (see Section 7.9.1 of the Guidelines).

7.3.3 It is understood that in the course of the aforementioned meetings, the Company will not disclose Inside Information to participants unless it is disclosed to the public in the manner specified in paragraph 7.2, simultaneously in the event of intentional disclosure and promptly in the case of unintentional disclosure (see Paragraphs 7.9.1 and 6.5.5 of the Guidelines).

7.3.4 In the event that the Company takes part in meetings with representatives of trade union organisations in the course of which data relating to company prospects are examined, if the delegations of the organisations have not undertaken any confidentiality obligation, the Company shall disclose to the public any Privileged Information illustrated therein (see Paragraph 6.5.8 of the Guidelines).

8 DELAY IN DISCLOSURE

8.1 Conditions for Delay

8.1.1 Pursuant to Article 17, paragraph 4, of the Market Abuse Regulation, the Company may delay, under its own responsibility, public disclosure of Inside Information (also in the event of a protracted process, occurring in different stages and intended to trigger, or involving, a particular circumstance or event) provided that the following conditions (the "**Conditions for Delay**") are met:

- (a) immediate disclosure would probably prejudice the legitimate interests of the Company;
- (b) the delay in disclosure would probably not have the effect of misleading the public;
- (c) the Company is able to guarantee the confidentiality of the Inside Information in question.

In the case of a prolonged process, occurring in different stages and aimed at triggering or involving a particular circumstance or event, the Company may, under its own responsibility, delay public disclosure of Inside Information relating to that process, subject to the need for the Conditions for Delay to exist and be maintained, as specified below.

8.2 Procedure for activating Delayed Public Disclosure of Inside Information

8.2.1 The assessment of the right to delay public disclosure of Inside Information shall be carried out, on a case-by-case basis, under the direct responsibility of the Chief Executive Officer or the Board of Directors, as the case may be, in accordance with Article 7.1.3 above.

8.2.2 To this end, the Chief Executive Officer or the Board of Directors, as the case may be, shall verify the existence of the Conditions for Delay, taking into account, in any case, also the provisions contained in the ESMA Guidelines on Delay, and shall complete the appropriate form, also with the support of the Information Referent for this purpose, drafted according to the template contained in **Annex B** to this Procedure.

8.2.3 Once the Conditions for Delay have been ascertained, the same shall file the aforementioned form with the relevant office, together with any other documents on the basis of which the assessment has been made and which certifies to the reasons for the delay, taking appropriate measures to ensure that such documents are not accessible by persons other than those who, within the Company, must have access thereto in the normal course of their professional activity or tasks. These documents must indicate all the elements required by Implementing Regulation (EU) 2016/1055 for proof and notification of delay, as specified below.

8.2.4 For the Delay in public disclosure of Inside Information, the Company shall use methods that ensure accessibility, readability and preservation on a durable medium of the information provided for in Article 4 (1), Implementing Regulation (EU) 2016/1055, set out below:

- (a) date and time:
 - i. when Inside Information within the Company first came into existence;

- ii. when the decision to delay the disclosure of Inside Information was taken;
 - iii. when the probable disclosure of Inside Information by the Company was made;
- (b) the identity of the persons responsible in the Company:
 - i. for taking the decision to delay disclosure and the decision establishing the beginning of the period of delay and its likely end;
 - ii. for the continuous monitoring of the Conditions for Delay;
 - iii. for taking the decision to disclose Inside Information to the public;
 - iv. for notifying to Consob the requested information on the delay and an explanation thereof in writing;
- (c) proof of initial compliance with the Conditions for Delay and any changes thereto occurring during the period of delay, including:
 - i. information protection barriers erected both internally and externally to prevent access to Inside Information by persons other than those who, at the Company, must access the same in the normal course of their professional activity or office;
 - ii. arrangements in place to disclose Inside Information as soon as its confidentiality is no longer guaranteed.

8.2.5 The Chief Executive Officer shall- without prejudice to compliance with the requirements set out in Article 4(1), of the Implementing Regulation (EU) 2016/1055 mentioned above - adopt any measure that the same deems appropriate for that specific case and taking into account the type of Inside Information as well as the electronic and/or paper format of the document in which it is contained, to ensure secrecy of the delayed Inside Information and maintenance of its confidentiality (by way of example, in the case of documents in electronic format, measures are in place to ensure limited access to the relevant document system), also taking into account the provisions of article 10 of the Procedure. To this end, it shall immediately inform the Insider List Manager (as defined below) of the implementation of the delay procedure, so that the latter may take steps to: (i) set up a specific individual section relating to Inside Information and register, with that section, all the persons that are allowed to have access to the Inside Information in said section; and (ii) inform the persons entered in the individual section, and in the permanent section, of the implementation of the delay procedure and the need to guarantee confidentiality of this information by scrupulously complying with the rules of conduct described in the article 10 (where applicable).

8.2.6 The Company has a number of measures (barriers) aimed at segregating Inside Information, i.e. preventing access to Inside Information by persons (internal or external to the Company) who do not need to have access to it in the normal course of their professional activity or office, i.e. persons who do not need to know the Inside Information (see Paragraph 5.1.2. of the Guidelines).

8.3 Conduct of the Company during the Delay

- 8.3.1 During the delay, the Chief Executive Officer shall monitor on a case-by-case basis and with the support of the person indicated in the documents filed pursuant to paragraph 8.2, that the Conditions for Delay and, in particular, the confidentiality of the Inside Information whose disclosure has been delayed, are still in place.
- 8.3.2 The Issuer shall prepare in advance a draft public notice to be issued in the event that the monitoring shows that one of the Delay Conditions (see Section 6.7.2. of the Guidelines) is no longer met.
- 8.3.3 In the event that it is ascertained that even one of the Conditions for Delay is no longer met (i) the Inside Information must be disclosed to the public as soon as possible, in the manner set forth in article 2 of this Procedure and (ii) immediately after disclosure to the public, the Company must provide the notice referred to in the following paragraph 8.4.
- 8.3.4 Confidentiality shall also be deemed to have lapsed if a rumor explicitly refers to Inside Information whose disclosure has been delayed, when such rumor is sufficiently accurate to indicate that the confidentiality of such information is no longer guaranteed (thus Article 17, paragraph 7, Market Abuse Regulation).
- 8.3.5 If the Issuer has a buy-back programme underway pursuant to Article 5 of the Market Abuse Regulation (the **Buy-Back Programme**), following the decision to delay publication of the Inside Information, the Chief Executive Officer shall inform the department responsible for the purchase of treasury shares that the conditions for benefiting from the exemption provided for in the Market Abuse Regulation no longer exist (cf. Article 4(1)(c) of the Delegated Regulation (EU) 2016/1052)⁴, unless the conditions for continuing the Buy-Back Programme pursuant to Article 4(2), of the said Delegated Regulation are met. If the Company has suspended the ongoing Buy Back Programme, the Chief Executive Officer shall notify the function responsible for the purchase of treasury shares that the conditions have been restored to be able to resume operations while benefiting from the exemption provided for by the Market Abuse Regulation (see Paragraphs 6.6.2 and 6.8.4 of the Guidelines).
- 8.3.6 Similarly, if the Company has a treasury share purchase programme underway which does not fall within the scope of Article 5 of the Market Abuse Regulation, following the decision to delay publication of Inside Information, it shall suspend purchases to be made in the context of the aforementioned programme and resume operations only after the Inside Information has been disclosed to the public (in which case the reporting obligations referred to above apply *mutatis mutandis*).
- 8.3.7 During the delay, the Company shall not make public information that is inconsistent with the information subject to the delay (see Section 6.4.2 of the Guidelines).

8.4 Notice of delay

- 8.4.1 When disclosure of Inside Information has been delayed pursuant to this Article 8, the Chief Executive Officer (or the Board of Directors, as the case may be), immediately after the Inside Information has

⁴ This is without prejudice to the possibility for the Company to continue the Buy-Back Programme by adopting the measures indicated in Article 4(2) and (4) of Delegated Regulation (EU) 2016/1052.

been disclosed to the public, shall notify the competent Authority of such delay and provide in writing the information required by Implementing Regulation (EU) 2016/1055, by providing Consob with the form contained in **Annex B** by certified e-mail to consob@pec.consob.it.⁵

8.4.2 Pursuant to Article 4, paragraph 3, Implementing Regulation (EU) 2016/1055, the notification of the Delay to Consob must include the following information:

- (a) Company identity: full company name;
- (b) notifier identity: name, surname, position in the Company;
- (c) notifier contact details: e-mail address and professional telephone number;
- (d) identification of the Inside Information affected by the delay in disclosure: (i) title of the disclosure announcement; (ii) reference number, if assigned by the system used to disclose Inside Information; (iii) date and time of disclosure of Inside Information to the public;
- (e) date and time of the decision to delay disclosure of the Inside Information;
- (f) identity of all persons responsible for the decision to delay disclosure of Inside Information to the public.

8.4.3 In the event that, pursuant to Article 114, paragraph 3, Consolidated Financial Act, in conjunction with Article 4, par. 4 of Implementing Regulation (EU) 2016/1055, the explanation in writing of the manner in which the Conditions for Delay have been satisfied must be provided to the Competent Authority at the latter's subsequent request, the Company shall comply with the requests of the Competent Authority by providing the same, in the manner set out in paragraph 8.4.1 above, based on the template set out in **Annex B**, containing such information.

8.4.4 Notice to the competent Authority is not required if, after the decision to delay publication, the information is not disclosed to the public because it has lost its privileged nature (see Section 6.8.2 of the Guidelines).

9 LIST OF PERSONS WITH ACCESS TO INSIDE INFORMATION

9.1 General rules

9.1.1 The Company shall establish and constantly update a List of persons having access to Inside Information (Insider List), kept in such a way as to ensure easy consultation and extraction of the data contained therein.

9.1.2 The Insider List is established pursuant to and for the purposes of article 18 of the Market Abuse Regulation and Implementing Regulation (EU) 2022/1210.

⁵ It is necessary to specify "Market Division" as the recipient and to indicate at the beginning of the subject line "MAR Delayed communication".

9.2 Insider List

9.2.1 The Information Referent (or the different person chosen by the Board of Directors) (the **Insider List Manager**), with the support of the Company's internal structures, shall immediately enter in the Insider List all those who, on a regular or occasional basis have access to Inside Information and all persons with whom the Company or persons acting in the name or on behalf of the Company have a professional relationship (employment contract or other) and who, in performing certain tasks, have access to Inside Information (such as consultants, accountants or credit rating agencies).

The Company may decide to use an external company to set up and maintain the Insider Register. In particular, Civitanavi may request an external company to manage all aspects related to the management of the Insider Register, its maintenance and updating, as well as notices relating to the issues covered by the Procedure.

9.2.2 The Insider List is divided into separate sections, one for each piece of Inside Information, and indicates the date on which it was drawn up. A new section to the Insider List must be added each time new Inside Information is identified.

9.2.3 Without prejudice to the foregoing, the Company has added an additional section to the Insider List, known as the permanent access section - of a different nature from the others because it is not created based on the existence of a specific Inside Information - in which the data of persons who, by function or position, always have access to all Inside Information are reported, which, once entered in this section, must not be referred to in the other sections.

9.2.4 Each section of the Insider List must contain at least the information relating to the identity of the person recorded and the reason why he/she is recorded, the date and time at which such person had access to Inside Information, as well as the additional information set out in Form 1 and Form 2 of Annex I to Implementing Regulation (EU) 2022/1210 set out in **Annex C** to this Procedure.

9.2.5 The Insider List must be kept using electronic devices that ensure:

- (a) confidentiality of the information contained therein by ensuring that access to the Insider List is limited to clearly identified persons who, within the Company, or any other person acting in its name or on its behalf, need to have access to it due to the nature of their respective function or position;
- (b) accuracy of the information in the Insider List;
- (c) ability to access and find previous versions of the Insider List.

9.2.6 The Insider List must be promptly updated when: (i) there is a change in the reason for including a person already on the Insider List; (ii) a new person must be included in the Insider List because he/she has access to Inside Information; (iii) a person on the Insider List no longer has access to Inside Information. Each update shall indicate the date and time on which the change occurred that made the update necessary.

- 9.2.7 The Insider List Manager shall have the Insider List drafted on the basis of the information known to him/her or received by e-mail from the Chief Executive Officer or from the heads of the other corporate functions involved from time to time. He/she may at any time contact the different departments/functions of the Company to verify the accuracy of the data in his/her possession.
- 9.2.8 In particular, the Insider List Manager receives from the aforesaid persons the data relating to the registration, updating and termination of registration with the Insider List of persons having access to Inside Information.
- 9.2.9 Immediately after a person has been included in the Insider List, the Insider List Manager shall inform him/her in writing of: (i) his/her inclusion in the Insider List; (ii) the legal and regulatory obligations arising from access to Inside Information; and (iii) the sanctions applicable in the event of misuse of Inside Information and unlawful disclosure of Inside Information.
- 9.2.10 The Insider List Manager shall also inform the persons included in the Insider List of any updates concerning them and of any removal of them from the Insider List, by means of an appropriate written notice.
- 9.2.11 The data of persons included in the Insider List must be kept for a period of at least five years after the circumstances which led to their inclusion or updating cease to exist.
- 9.2.12 The Company shall send⁶ the Insider List to the competent authority as soon as possible upon request by the latter.

9.3 Access to the Insider List

- 9.3.1 Without prejudice to the powers of the competent authorities, access to the Insider List is reserved to:
- (a) the Information Referent and any persons appointed by them to manage the Insider List;
 - (b) the Chief Executive Officer, in order to supervise the correct application of the Procedure, with the support, if necessary, of the competent corporate structures.

9.4 Confidentiality of information contained in the Insider List

- 9.4.1 The personal data required for inclusion in the Insider List will be acquired and processed in accordance with current legislation on the protection of personal data.

If a Relevant Person has to pass on to third parties documents or information concerning Confidential Information, in the normal course of their professional activity or function, he/she shall ensure that they are bound by an obligation of confidentiality of the documents and information received, regardless of whether such obligation is of a legislative, regulatory, statutory or contractual nature.
- 10.2.4 All relations by the Relevant Person with the press and other media, aimed at disclosing Confidential Information, shall be exclusively through the "Investor Relations" function, which shall obtain the prior authorisation from the Chief Executive Officer. In any case, if the documents and information concerning Confidential Information contain references to data of an economic, asset, financial, investment, personnel employment or similar nature, such data must obtain the prior approval of the Appointed Manager.

 - (g) keep records of the survey for 5 (five) years.
- 11.1.2 When the information disclosed in the course of a market survey ceases to be Inside Information, according to the assessment of the person who disclosed it, the latter shall, as soon as possible, notify the person who received the said information.
- 11.1.3 The disclosure of Inside Information by a person who intends to make a public takeover offer in respect of securities of a company or a merger with a company of security holders also constitutes a market survey, provided that the information is necessary to enable the security holders to have an opinion on their availability to offer their securities as well as their willingness of the security holders to offer their securities is reasonably necessary for the decision to make the takeover or merger offer.

- 12.2 Breach of the obligations established by this Procedure, even where it does not result in a conduct directly sanctioned by the competent judicial, administrative and/or supervisory authorities, constitutes serious damage for the Company, also in terms of image, with important consequences in economic-financial terms. The breach also implies the possibility for the Company to claim compensation from the offender for the damage suffered by the same and/or by the Group.
- 12.3 In the event of a breach of the obligations set out in this Procedure by a Director, the involved Director will not be able to take part in the resolution concerning sanctions. If the majority of the members of the Board of Directors took part in the breach, the Board of Statutory Auditors will be the competent body to take the appropriate measures.
- 12.4 If committed by other Relevant Persons (other than Directors), the breach of the obligations set out in this Procedure may constitute a disciplinary offence for the persons required to apply it and, in the most serious cases, may result in dismissal, also exposing the person who has committed the breach to the risk of criminal and administrative sanctions.
- 12.5 Should the Company be sanctioned for breach of the provisions on corporate disclosure resulting from non-compliance with the principles set out in this Procedure, the Board of Directors shall take steps to recover the sums from the persons responsible for such breaches, in order to obtain reimbursement of the charges relating to the payment of such sanctions, without prejudice to any further claims for damages, including image damages.
